The movement is protected inside by a glass dome.

The movement has a Patent Lever Escapement, built on the soundest scientific principles.

The watches are keyless, and the hands are set also through the keyless mechanism, so that there is no necessity of opening the watch.

The watches have a second hand.

The figures of the dial and the hands are left extra bold, so that the time can be seen instantly on a glance at the dial, and in nearly complete darkness.

The watch, as a whole, combines strength with all the conditions necessary to good time-keeping.

This watch has proved a complete success as a CAMPAIGN WATCH, and its usefulness is recognised by the daily increasing demand from all quarters of our Army in the field.

To Shikaries, Sportsmen, &c., these watches will prove to stand any amount of rough usage and handling.

We guarantee riding will not effect the working of these watches.

We dare confidently say that these watches, if treated with ordinary care, and cleaned once every two years, will give a 15 years' good service.

Every watch is fitted in a wooden case, in which will be found a spare glass, and a spare mainspring.

We receive now regular shipments of these watches by each mail, and every order can for the future be executed by return post.

Only watches that have been examined and timed are despatched on orders.

2 years' guarantee. Packing and postage free.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, Nov. 18, 1880.

A further withdrawal from the Bank of England is advised by Reuter in his London message of yesterday, £100,000 having been taken for North America, but the rate of discount in the open market remains unchanged. Consols come ¼ higher at 99⅞, but French Rentes are ¼ lower at 118¾ ; and Enfaced Rupee Paper has undergone a decline of ¼, Fours being now quoted at 80½ and Fours-and-a-half at Rs. 87⅞.

In the Mincing Lane markets Coffee and Cocoa nut Oil show no change, and Seeds are also without alteration.

Piece-goods in Manchester yesterday were quiet but steady, and quotations for metals show no movement.

The Liverpool Cotton market yesterday, Reuter says, closed irregular, the day's sales being estimated at 10,000 bales, of which only 700 were Surats. In prices the only change is a decline of 1-16d. per lb. in Mid.-Uplands, which now stand at 6⅜d ; but, singularly enough, notwithstanding a large day's receipts at the ports, February shipment in New York is quoted five points higher. The receipts to date show the following comparisons :—

	1880	1879	1878.
Wednesday's Receipts	32,000	29,000	25,000
Five days' do.	154,000	141,000	110,000
Total since 1st Sept.	2,005,000	1,804,000	1,469,000

At the weekly biddings for Council drafts on India in London yesterday, of the 30 lacs offered Rs. 21,30,000 were allotted to Calcutta and Rs. 60,000 to Madras at an average of 1s. 7·77d. and Rs. 8,10,000 to Bombay at an average of 1s. 7·81d. ; tenders at 1s. 7¾d. on all three presidencies having received 3 per cent. of the amounts applied for. This is about the average generally anticipated here yesterday ; but it seems as if something better had been expected in London, as Bar Silver has declined from 51 13-16d. to 51⅞d. per oz., and—our own correspondent says—is weak at that. For next week 30 lacs will again be offered.

Exchange.—The transactions in Sterling to-day have been limited, and a very quiet feeling has prevailed. Although Councils have brought as nearly as possible what was generally expected, there seems to be a sort of idea that they might have brought more, and to that extent a weaker tendency is apparent. Ready rates are unchanged throughout, but the belief in an after-recovery is evidently diminishing, as not only are the banks less willing sellers for distant delivery, even at a partial decline of 1-32d. per rupee, but at the close to-day they are buyers for delivery up to the end of the year at the price of ready bills. We now quote:—

Bank Bills on demand	Rs. 7 23-32d.	per rupee.
Do. telegraphic	Rs. 7 11-16d.	,,
Do. 3 months' sight ..	Rs. 7 13-16d.	,,
Credits, 3 ,, ,,	Rs. 7 15-16d.	,,
Documents, 3 ,, ,,	Rs. 7 15-16d. to 31-32d.	,,
Francs, 3 ,, ,,	2f.11c.	

On Calcutta business has been done in demand drafts to-day at par. For 60 days' sight there is still practically no quotation.

Government Paper.—For Fours a fairly steady feeling is still apparent, and the quotation is unaltered at Rs. 97¼, but Fours-and-a-half are ½ lower at Rs. 106⅝, business having been done in both denominations at these figures.

Shares.—The market remains firm, but there is nevertheless a want of excitement, and the amount of business doing is smaller than a short time ago. Holders all round show no disposition to force sales ; but with the busy season approaching, there is, naturally enough, less willingness to lock up money in shares. Bank of Bombays are ¼ per cent. lower at Rs. 726¼. In Land Shares the only movement is in Colabas, which are Rs. 10 higher at Rs. 785. Press Companies, as a general rule, are very firm. We quote an advance of Rs. 75 in Apollo, Rs. 25 in Colaba, and Rs. 50 in Fort Press and Prince of Wales, whilst Berars are Rs. 15 and New Indian Rs. 2½ per share lower. Spinning and Weaving Mill shares are somewhat irregular. The Mills are still doing well, every sale of Goods and Yarns showing a clear profit on the working ; but the speculative demand for shares has latterly subsided. In Alfred and Empress we note a decline of Rs. 10, in Morarjee Goculdass of Rs. 25, and in Hindustan of Rs. 5 ; but Coorla and Dhurrumsey show an advance of Rs. 10, Jewraz Balloo of Rs. 20, Prince of Wales Rs. 30, and Oriental of Rs. 5 per share.

Cotton to-day has been very quiet. In Old Crop the transactions have been very limited, although sellers have shown a disposition to accept a decline of Re. 1 per candy. In New Cotton there has been some pressure to sell at a reduction of Re. 1 to Rs. 2 per candy, but, as before, the sellers have been European firms, and the buyers of the few lots which have changed hands native dealers. We quote to-day :—

Good Hingunghat, Dec. dely.	Rs. 232	per candy
,, Akote, March ,, ...	,, 216	,,
,, Omra ,, ,, ...	,, 213	,,
,, Broach ,, ,, ...	,, 228	,,
,, Dhollera-April, May	,, 212	,,

Linseed is quiet but steady at Rs. 6-13 to Rs. 6-14 for ready and Rs. 6-7 per cwt. for May delivery. Wheat is dull with few, if any, buyers at Rs. 32 per candy for best Soft White.

Freights are quiet but unchanged. For Liverpool by steam we still quote 42s. 6d. for measurement immediate shipment, 36s. 3d. to 37s. 6d. for December. Mediterranean and Continental rates are unaltered, and no new charters are reported.

Piece-goods continue quiet with only a very limited business doing from first hands, and from the bazaar an off-take of about 400 packages per diem. Prices are not quotably lower, but there can be no doubt that the tendency is in favour of buyers.

Coals are still very firm to arrive, with buyers, but practically no sellers at Rs. 16-12 for Davison's and Cardiff.

THE appointment of Mr. T. C. Hope, C. S. I. as Provisional Member of Council of the Bombay Presidency is formally notified in yesterday's *Government Gazette*. This will not prevent Mr. Hope from succeeding Mr. Chapman as Financial Secretary. His appointment as a "provisional" member of the Bombay Council will be only of practical effect when one or other of the pucka members disappears from the scene.

A PARAGRAPH appears in the *Bombay Government Gazette*, notifying the promotion of Surgeon Major Ramdahin, Sanitary Commissioner, to the rank of Deputy Surgeon-General.

MR. J. C. D'AGUIAR, head-assistant to the Commissary-General of Bombay, has been appointed to a lucrative post on the Goa Commission in connection with the late treaty with the Portuguese Government and the newly-projected railway. The new church is to be dedicated to the honor of "All Saints." As the walls begin to rise, and the long-talked of church becomes a reality it is confidently hoped that fresh subscriptions will come in, so that the loan so generously advanced may be promptly repaid, and the interior arrangements and fittings of the church may be in keeping with the beautiful design.

A CORRESPONDENT writes from Khandeish :—The crop prospects are excellent. Cotton is good, but the first pickings were slightly damaged and discoloured by the late rains. The second pickings will be better. The yield of jowari, bajri, and white tilli exceeds all expectation, and grain of all kinds has seldom been cheaper. The rabi crops are springing well, and the ryots look forward to a plentiful wheat and gram harvest. The reaping of the jowari and bajri is in progress, but the want of hands is sorely felt. The harvest truly is plenteous, but the labourers are few. The duck are in, but snipe and grey quail delay their coming.

SINCE the transfer of the management of the Wynaad Gold-mining Company, Limited, into the hands of Messrs. C. H. B. Forbes and Co., we learn ...t arrangements have been concluded by which ... consideration to be paid by the company to ... the vendor for the freehold title to 1,000 acres of ...auriferous land in the Wynaad district has been ...reduced to Rs. 3,00,000, half of which only is payable in cash, and the balance in shares. We are further informed that about ...the required capital to develop the concern has ...ready been subscribed, and that a portion of the ...maining shares will be offered in London. Like those of the majority of the companies started in London, the shares of the two existing gold-mining companies floated in India have risen to a premium. We hear that the Madras Gold-mining Company's shares are now quoted at 50 per cent. premium, and those of the "Ripon" are difficult to purchase at the same rate.

THE Chamber of Commerce meeting which will be held to-day, and which will be addressed by Mr. Clement Leggatt with reference to the telephone system, which it is proposed to introduce into India, will be open to the general public interested in such subjects.

THE following gentlemen are the examiners for the F. C. E. examination and L. C. E. degree, which commence on the 25th instant at the University :—Mr. J. Jardine, M. A., Rao Bahadur Dajee Nilkanth Nagurkar ; Dr. J. B. Lyon, F. C. S. ; Mr. F. W. Stevens, C. E. ; Mr. S. Cooke, M. A. ; Mr. E. B. Carroll, M. S. C. E. ; and Mr. Scorgie, F. C. S.

HIS EXCELLENCY THE RIGHT HON'BLE SIR JAMES FERGUSSON, Bart., K. C. M. G., we are informed, has accepted the office of a Patron to the Bombay Society for the Prevention of Cruelty to Animals.

THE Calcutta volunteers, at the first C. O. parade of the season, turned out 414 men. "Urbs prima in Indis" ought to be able to do as well, but has not, so far, even allowing for the 140 cadets included in the number.

THE *Indian Daily News* thinks that "going back to what we know of Maiwand, the Viceroy would do a wise and gracious act if he took an opportunity, in the course of his tour, to recognise the devotion and bravery of the Bombay native troops. He would do what is, after all, but bare justice to brave men, and he would remove an impression which, unless it be checked by the head of the Government, must inevitably produce the worst effect in the minds, not only of the Bombay soldiers, but of the classes from which they are recruited."

A CALCUTTA paper is informed that a committee will be appointed there this cold weather to devise a scheme for simplifying the work of the Commissariat Department. A similar committee was to have met at Simla two years ago, but its proceedings were put a stop to by the outbreak of the war.

IT is stated that a kheddah is to be established at Doorgapore on the Garrow Hills, where the Superintendent of the Dacca kheddah intends to proceed shortly. The elephant-catching operations for the season will probably commence by the beginning of next month.

THE Rumpa Field Force, the *Madras Times* states, will soon be a thing of the past, for the edict has gone forth that as soon as the force dwindles down to one regiment of native infantry, Brigadier-General Buck is to revert to his regiment, the 30th N. I. As active steps are being taken to relieve all military by police, it will not be long ere the protection of the Rumpa district is solely left to the charge of Mr. Sweet's "belted knights."

REGARDING the labour and food question mooted at a recent meeting of the Bombay Municipal Corporation, when attention was called to the fact that the drivers of the Municipal scavenger-carts did not assist in loading their carts, but only looked on, and Dr. Cook said the men only got nine rupees a month, and could not be expected to do hard work, as, on such wages, they could not get enough to eat, the *Englishman* observes that nine rupees a month would be considered high wages for a cart-man in Calcutta, and there he would have to help in loading his cart as well. The majority of hardworking coolies in Bengal do not earn near so much as nine rupees a month, and yet they do much harder work than filling dust-carts.

THE announcement that the new Bhopal railway, the construction of which has been entrusted to Messrs. Glover and Co., will be made on the broad gauge is hailed with delight by the *Indian Daily News* as a departure from the Strachey system, "which the public will note with hope as well as satisfaction." The same paper suggests that, "in the light of the experience already gained by the pressure of war, and by a growth of trade beyond the powers of the narrow-gauge lines, the present Viceroy would do well, as soon as he has leisure, to reverse the worst of the Stracheyian blunders, and to put an end to the narrow-gauge system on all main or through routes. Where lines may be said to be merely district lines, branching off for sixty or one hundred miles from a main line, they may be classed as "feeders," and as such may be constructed on the narrow, or Strachey, gauge. But there should be a limit of length for a line of this sort. If a line run beyond one hundred miles, or if it link any large centre of population, or any prominent place of pilgrimage, or resort, to the main line, it ought to be constructed so as to allow of unbroken through traffic. Such a policy would be found cheapest in the end. Again, should a line branch off in a direction promising ultimately to lead it by successive extensions into forming a great link between two main lines, then it should be constructed on the gauge of those main lines. There is too much measurement now-a-days of things Indian by the annapies standard. Economy in Government is most desirable, but mere economy in the setting-up of an arithmetical result as the end-all and be-all of Government is very far indeed from statesmanship, and the main objection to the Strachey gauge is, that it is begins and ends with arithmetic. Such things as political and military needs, commercial convenience, and a rapid growth of traffic are put aside with an affectation of superior wisdom which has hitherto been successful."

THE dignity of a Companion of the most Exalted Order of the Star of India was conferred upon Maharajah Partab Sing, one of the numerous brothers, and at the same time the nominal Prime Minister, of the Maharajah of Jodhpur or Marwar, by the Political Agent for the Western States of Rajputana, on the evening of the 10th instant, in a big durbar, convened in honour of the occasion, on the lawn of the Jodhpur Residency. Partab Sing's sportsmanlike figure is not unknown in the stations and tiger-jungles of the North-Western Provinces. On the recommendation of his friend, the present Agent to the Governor-General for the States of Rajputana, he was appointed to attend the political mission from the late Viceroy, the rude rebuff attending which, under orders issued by Sher Ali Khan at Ali Musjid, precipitated the first of the two recent Afghan wars.

AT last Calcutta is going to do something in behalf of the Patriotic Fund. The *Englishman* tells us : "A large and influential committee has just been formed at Calcutta in connexion with the Simla Central Committee of the Patriotic Fund, which was inaugurated at the public meeting held at Simla on the 14th September under the presidency of the Viceroy. As the object of the fund is already thoroughly known to the public, and the speeches delivered at the meeting at Simla have been published throughout the country, it is, we understand, considered unnecessary to hold a public meeting in Calcutta, and the committee will at once go to work to collect subscriptions. In communication with the Calcutta committee, there will be a local committee at the head-quarters of each division, and sub-committees will be appointed in the different districts. The Chief Justice, Sir Richard Garth, has consented to act as president of the Calcutta committee, and Mr. Henry Beverley, Mr. H. W. I. Wood, and the Hon'ble Rai Kristo Das Pal Bahadur have been asked to act as honorary secretaries."

A COMPLAINT comes from the troops in the Kurram Valley. It is stated that, although large quantities of stores are being daily sent down to Kohat and Rawal Pindi, both by Government Transport and hired carriage, profound secresy is maintained as to the date on which the troops still detained there are to march to their several stations, and that this policy has given rise to considerable discontent. Such reticence on the part of the authorities, while apparently necessitated by no consideration of policy, bears very hardly upon many who, while they have not been fortunate enough to gather any large proportion of the laurels, have borne much of the heat and labour of the day. Many who had to send their families home to England at the commencement of the war are naturally anxious to make arrangements for their return to this country, but are prevented from doing so owing to the apparently unnecessary uncertainty which shrouds their own movements. Where the interests of the public service demand the sacrifice, in the army more than in any other profession, private and personal considerations must be disregarded ; but in a case where no such argument would appear to prevail more consideration seems due to those who have loyally and uncomplainingly performed an arduous and thankless task.

THE Theosophist organ of Allahabad thinks it will be "possible for Lord Ripon to work with Lord Lawrence's traditions without refusing to be the executor of Lord Lytton's legacies. He might, that is to say, refuse under any circumstances to advance, as some authorities would recommend, to Herat, but he need not chuck back into the sea the fish that have actually been caught. So it will be more reasonable to regard the Lahore speech as meaning that the Viceroy is in favour of upholding the limitations of the empire as he finds them, than to suppose it implies an intention on his part of using no later maps than those which define its limitations as Lord Lawrence found them."

IT is curious, remarks the *Pioneer*, how familiar legal maxims get misapplied sometimes. It was bad enough when a deputy commissioner refused to decree possession of a cow which the defendant had been imprisoned for stealing from the plaintiff, on the ground that *nemo debet bis vexare* ; but a subordinate court of the Godavery Valley got into worse confusion than that. It was the maxim *qui facit per alium, facit per se* that led the court astray, and induced it to fine a townsman, whose child had privily sinned against clause 7 of section 34 of the Police Act. The judgment resembled a certain scriptural proverb read backwards—"The fathers have eaten sour grapes, and the children's teeth are set on edge."

MATRICULATION EXAMINATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The question-paper which on Monday last was set to the candidates for matriculation is one in which a very large number of persons are interested. A consideration of it, or a criticism of it, is likely to be of some use. There are eight questions in all ; and I think the last three will command general approval, for they are a very fair test of English knowledge. To see whether the students have a practical knowledge of English grammar they are wanted to parse a few important words in an English passage which, however, is by no means classical in respect of style. Then we have a portion of conversation copied from Boswell's great biographical work, which is required to be composed in a connected narrative form. An objection that might be taken with regard to this is, that in the first line of it there is a metaphor which is by no means dignified, and therefore allowable only in familiar conversation, a man being compared, according to his wisdom or folly, to a full or empty box. Then a pronoun standing for a substantive, which is not expressed clearly, either above in any line or below, but which is only in the mind of the speaker, has no warrant for such use in good English prose. The fifth question is open to the greatest objection, inasmuch as it lacks simplicity, and takes the third section of the question-paper, which contains in the course of six lines so many as thirteen idiomatic expressions, some of which highly idiomatic, whose solution is required from the young students, thus offering them examples of the English language which are scarcely worthy of imitation.

LOCAL DEBENTURES AND THE STAMP DUTY.

(Gazette of India.)

DEPARTMENT OF FINANCE AND COMMERCE.

Simla, the 13th November, 1880.

No. 3646.—Resolution.—The Presidency Municipalities, the Trustees of the Port of Bombay, and the Commissioners for making improvements in the Port of Calcutta, are empowered by the enactments constituting or incorporating them to borrow money for certain purposes by way of debenture, on the security of the rates, taxes, or dues which they are authorized to levy or impose.

2. Under the Local Authorities Loan Act other bodies corporate and municipalities may also be authorised to borrow money upon the security of the funds which they administer or the taxes which they levy.

3. The bonds or debentures issued by all these bodies, and coupons issued with such debentures, are, in the absence of any special exemption, chargeable with stamp duty at the rate of about ½ per cent.

4. The question whether stamp duty is chargeable on the renewal and sub-division of such debentures, is open to argument ; but whether stamp duty is chargeable in such cases or not, the interests of the stamp revenue necessitate the attendance of the parties at the office of the Collector of Stamp Revenue, in order to the stamping (without charge) of the new debentures. The Government of India is not willing to relieve such debentures altogether from the payment of stamp duty, but it is prepared to exempt coupons issued with them from the separate payment of duty, and is anxious to remove, as far as is compatible with the due protection of the stamp revenue, the inconvenience occasioned to the debenture-holders by the necessity for attendance at the Stamp Office in case of renewal or sub-division.

5. His Honour the President in Council thinks that these objects may be attained if the abovementioned bodies corporate are willing, on the issue of any debentures, to compound for the stamp duty chargeable thereon by the payment, in a lump sum, of ½ per cent. on the total amount of the loan. There is no special provision in the law authorising such a composition ; but on payment by any of the corporate bodies referred to, under such a composition, the Government of India will exempt the debentures from any stamp duty with which they might otherwise be chargeable, whether on issue, renewal, or sub-division.

6. The payments made under such compositions will be credited to stamp revenue.

SHOOTING OF THE BOMBAY ARMY.

THE returns of the last annual course of musketry by the British and Native Armies serving in the Bombay Presidency show the figure of merit of the European troops to be in two instances "very good," in three "good," and in the remainder only "moderate ;" and the Commander-in-Chief desires the immediate attention of officers commanding these latter corps to the improved training of their men, which is unsatisfactory. The total average of the figure of merit of the native army has improved, but the standard is still very low, the four highest regiments being only "moderate," according to the average laid down. The necessity for increased exertions on the part of all officers, European and native, is therefore apparent, and His Excellency demands the unremitting attention of commanding officers to raise the proficiency of their men, which can only be obtained by constant and careful personal supervision on their part. The training of the recruits of the native army has not been found satisfactory. Although a large number of men have been exercised, a great number still remain untrained, whose terms of service exceed the time when, by regulation, they should have joined the ranks. A large percentage of the recruits trained obtained the qualifying number of points only after repeated failures, which is attributed to want of proper instruction and supervision on the part of the commanding officer and officers of the regiment.

The following returns show the comparative proficiency in the several corps of British cavalry and infantry stationed in the Bombay Presidency that have practised so as to establish a "figure of merit" in the course of musketry for the year 1879-1880.

ASSAULT AT THE WORKHOUSE.—Regarding a paragraph which appeared in Tuesday's issue, chronicling the fact that Charles Irving, an inmate of the Government Workhouse, had assaulted another gentleman residing for the time being in the same establishment, we are informed that the name of the latter gentleman is Charles Buckhall, *not* Charles Blackwell, as the paragraph stated.

THE COMMANDER-IN-CHIEF.—His Excellency General Warre, accompanied by his Aide-de-Camp, and Major Rivett-Carnac, arrived from Ahmednagar on Tuesday last, and started for Bombay by the passenger train on Wednesday morning. His Excellency stayed at Mr. Hardwicke's Royal Family Hotel, and we are glad to learn that His Excellency expressed himself perfectly satisfied with the arrangements made for his reception at the hotel.—*Poona Observer.*

DEATH FROM BURNS.—A coroner's inquest was held yesterday at the regimental hospital of H. M.'s 25th Regiment N. I., Marine Lines, on view of the body of a girl named Ameerbee, aged eight years, the daughter of a private of that regiment, who died from the effects of burns which she sustained by her clothes having accidentally caught fire while playing with a box of lucifermatches, which suddenly ignited. A verdict of accidental death by burns was recorded.

A CARRIAGE ACCIDENT.—On Wednesday morning last, while a carriage and pair of horses were being sent by Messrs. Ludda Ebrahim and Co., of Bellasis Road, Byculla, to the Raja of Palitana, one of the horses became restive, and on the coachman endeavouring to unharness him, broke away and bolted up against a hack-buggy, the driver of which was thrown from his seat, and sustained a slight injury to his face. In the meantime the other horse also became restive, kicked over the traces, and injured itself by the cross-tree piercing its body, so that it had to be shot.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ending Tuesday, 16th instant, was 381, being 11 less than in the previous week, 80 less than the week ending 18th November, 1879, and 74 less than the mean of the corresponding period in the preceding five years. During the week 316 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population per annum was 28·00. There were 105 deaths from remittent fever, being 16 less than in the previous week, and 39 less than in the same period last year. The deaths from diseases to the respiratory system, diarrhœa, and dysentery were last week 30, 18, and 15, respectively, as compared with 43, 15, and 17, last year. The following remark is appended by the Health Officer to his return :—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

ROBBING A CHILD OF ITS ORNAMENTS.—The daughter of Elibux Cummal, aged about five years, while playing in front of her father's house at Bhendy Bazaar, on Wednesday evening last, was enticed away by a Mahomedan, and taken to Mahim, where he removed two silver bangles, valued at Rs. 5, from her person. About 3 a. m. yesterday the man put the child into an empty cart that was proceeding to Tarwaddy, telling the driver of the cart that he would follow and overtake him after procuring some fire to light his *biddee* ; but as he did not make his appearance, the driver brought the child on to Byculla, and made her over to police constable No. 52 E. The girl had also on her person eleven silver ear-ornaments, which were not taken away. The cart-driver says he can identify the man who put the child in his cart between Mahim and Dadur. A search is being made for him by the police.

BOMBAY DEBATING SOCIETY.—St. Xavier's Hall counted a greater number of auditors at the meeting of the Bombay Debating Society on Wednesday last than in the previous week. The Chairman, the Rt. Rev. Catholic Bishop, opened the meeting by reading two papers sent to him. In the first a former member of the Debating Society offered some nice variations of the main argument adduced by the lecturer on the existence of God for proving the impossibility of the existence of the universe from eternity. In the second Mr. "G." submitted some new objections against the same argument, which merited, therefore, full consideration, and required a refutation. The Rt. Rev. Chairman remarked he had no objection to receive and to notice anonymous papers of this kind, provided they were, like the present, written respectfully, and dealt with the subject under debate. The Bombay Debating Society granted to everybody the greatest liberty within the limits of charity. Mr. "G.'s" letter is too long for us to reproduce here. The Rt. Rev. Chairman announced a new lecture, *On God's Wisdom*, for Wednesday next, unless other difficulties on the subject under debate would be proposed for solution.

Holloway's Pills and Ointment.—Influenza, Coughs, and Colds.—In diseases of the throat and chest, so prevalent in our changeable climate, nothing so speedily relieves, or so certainly cures, as these invaluable remedies. These disorders are too often neglected, at their commencement, or are injudiciously treated, resulting in either case in disastrous consequences. Whatever the condition of the patient, Holloway's remedies will restore. If cure be possible, they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital power. By persevering in the use of Holloway's preparations tone is conferred on the stomach and frame generally. Thousands of persons have testified that by the use of these remedies alone they have been restored to health after every other means had failed.

BENCH OF JUSTICES.

A SPECIAL meeting of the Bench of Justices was held yesterday in the Durbar Room of the Town Hall, Mr. Dosabhoy Framjee, C. S. I., presiding. There were also present :—Messrs.

his men harassed the enemy in the neighbouring villages—Captain Shervington and Lieutenants Carstensen, Clarke, and M'Mullen leading in the skirmishes which took place. In one of these, on the 17th of September, a vedette, named Bernard White, was killed, and in another Lieutenant Clarke, C.M.R., fell. The latter must not be confounded with Brigadier Clarke, C.B., the Commandant-General of the colonial forces. Lieutenant Clarke was sent out with reinforcements to cover some of Captain Shervington's men, who were in danger from a force of 1,200 rebels surrounding them. In covering their retreat the horse of one of the riflemen, Private Magee, was killed, and he himself wounded; whereupon Lieutenant Clarke, although closely pressed by the enemy, stopped and dismounted, placing the wounded man upon his horse, which, however, threw them both and broke away, and he and Magee being left in the midst of the rebels were immediately surrounded and cut to pieces. Clarke was seen to make a desperate resistance, killing three or more of the enemy. The bodies of the dead were afterwards recovered. These were our only casualties; while the rebels had from 40 to 50 killed and wounded.

After this the Basutos seem to have determined on a simultaneous attack upon the garrisons at the magistracies of Maseru, Mafeteng, and Mohali's Hoek; but Mafeteng and a neighbouring trading station (Dipherings) bore the brunt of it, Lerothodi himself, with a following of about 5,000 men, well armed and mounted, leading the assault. The defending force consisted only of 200 Cape Mounted Rifles, 120 natives, and a few volunteers; but they had made preparations for the attack, and on reconnoitring Lerothodi's kraal the previous evening it was observed that large reinforcements had arrived there, and an attempt on the camp was therefore expected. The men were disposed as follows:—The three schanses (temporary fortifications with high walls and a traverse) above the Court-house were commanded by Mr. Barkly. The main schanse was held by 14 Cape Mounted Rifles and two volunteers with Mr. Barkly. No. 2 schanse by 13 Cape Mounted Rifles and 12 natives. No. 3 schanse by eight Cape Mounted Rifles, 15 natives, and Mr. Mallraison. Diphering, Mr. Fraser's store, was held by 25 Cape Mounted Rifles, 25 volunteers, and Captain Montague. The intrenchment, stone horse-kraal, and Mr. Barkly's house and hospital, all adjoining, were held by 136 Cape Mounted Rifles, wagon-drivers, and a few natives; the house and hospital being in charge of Dr. Smith; the men firing from barricaded windows and the roof of the house, which was sand-bagged. The Court-house was loop-holed and defended by the remainder of Mr. Barkly's native police and a few volunteers.

Colonel Carrington, reporting to the Commandant-General the particulars of this engagement, which occurred on the 21st of September, states that the enemy first swept down and carried off the cattle, notwithstanding all the efforts of the mounted guard, the herds having fled. They then advanced with supports and large reserves from every side charging down at the top of their speed, while our men kept up a steady and well-directed fire from all sides of the intrenchment, both sides of the horse-kraal, and from the windows and roof of the house. Colonel Carrington says a very dashing charge was made by the enemy down the main road to Mafeteng, led by a chief; at about 100 yards they were turned by a heavy fire from the main schanse and Court-house, and had their leader shot. "This attack," he continues, "had scarcely been repulsed when about 1,500 men moved from the left, and, on gaining the road, wheeled to the right and charged at full speed. They were met with a heavy volley at 400 yards, which checked but did not completely stop them, and though the majority retired, some 200 to 300 of the boldest continued the charge under a heavy fire until they gained the shelter of a wall and rocky ledge immediately below the main schanse. In so doing they lost a considerable number of men and horses. Some of these men burnt a house close to the schanse, and crept up to within 50 yards, building stones up in front of them, and loop-holing a sod wall of a garden. Fresh charges were repeatedly made by the enemy in the face of the fire to reinforce these men, while we sent men up from Mr. Barkly's house with water and fresh supplies of ammunition for the schanses. At 5 o'clock p. m., having gone up to the main schanse to Mr. Barkly, I sent down to Captain Shervington instructions to sally out with 25 mounted men and charge on the right flank. This he did in the most gallant manner under their fire and dislodged the enemy, who were about 400 strong, close underneath the schanse, from 50 yards up to 400 yards. A tremendous fire was at once opened upon their retreating; they continually dismounted and picked up their dead and wounded. Fifty-nine dead horses and some seven to eight bodies lay round the schanse. Captain Shervington, by my orders, did not pursue, as the reserves in his rear came down at once. A very large number of dead and wounded were lying behind a sod wall, but they were carefully covered by a large reserve, and most of them carried away after dark." Our casualties were—of the Cape Mounted Riflemen Corporal W. Brownlee and Privates C. Meyer, J. Bevan, and W. Curran, gunshot wounds, and one of the Basuto police also wounded. The smallness of the list was owing to the fact that every man was under cover erected with the greatest care by Lieutenant Carstensen, Cape Mounted Rifles, a young officer formerly in the Prussian Army. The enemy were well armed with Martini-Henry and Snider rifles, as was proved by the large number of cartridge-cases found. Their loss was estimated at 150 killed and incapacitated, and the ground around the camp was strewn with dead and wounded horses.

Another seat of magistracy, named Mohali's Hoek, where Mr. Surmon is the Resident, was also the object of repeated attacks, and, as the garrison there was believed to consist of only 13 whites and 97 loyal natives, their position was regarded as very critical. Messages have, however, been received from them stating that they twice repelled thousands of the rebels, and without any serious casualty to the gallant defenders, whose defence of Mohali's Hoek will compare with, if not surpass the heroic affair at Rorke's Drift. A retiring force of Cape Mounted Rifles, Yeomanry, and volunteers, in all numbering 600 men, with a field-piece, has been sent to their aid, and intelligence of their success is hourly and anxiously looked for. Maseru, the magistracy of Colonel Griffiths, the Governor's agent, has once or twice been surrounded and threatened by Masupha's followers. At one time a force of 3,000 made a demonstration, but thought it prudent to retire, the place being well garrisoned by the right wing of the Cape Mounted Rifles, under Colonel Bayley, C.M.G. At Quithing and Mount Moorosi, Mr. Austen, the magistrate, forms a centre for the "loyals," and Major Bell holds his post among Molappo's people in Leribe district.

The extent to which disaffection has spread in Basutoland cannot well be known until our forces are in possession of the country and the magistrates now shut up in their respective camps, are enabled to make arrangements for separating the loyal from the rebellious. It is believed that the Christian portion of the tribe, including several of Moshesh's sons, such as Letsea, George, Sephonae, and Tsekelow, and also Molappo's son, are with the Government, while the heathen part of the community are thoroughly with Lerothodi and Masupha's party. One of Moshesh's sons, Tsekelow, frankly told the Premier a short time ago that he did not think the rebels had risen solely on account of the disarmament movement, but there were certain of the chiefs who wished to be entirely free from the government of the Queen, and who wished the abolition of taxes and even the removal of the magistrates, and they used the disarmament question merely as lever to move the people into joining them.

The Colonial Government has now to stamp out the rebellion and maintain the authority of Her Majesty the Queen all along our native border by its own unaided efforts. The Imperial authorities have prohibited the assistance of even a single soldier, and the knowledge of this has, unfortunately, spread throughout Basutoland, and even parts of Caffreland, greatly increasing the difficulties of our position. The Ministry and the colonists generally, however, have accepted the responsibility upon the understanding that there shall be no Imperial interference hereafter in the settlement of the country when the rebels are subdued.

CAPE TOWN, Oct. 22.

Brigadier-General Clarke officially reports from Maseru the details of the engagement with the rebels on Tuesday. The column advanced some distance unopposed. Nothing appearing on the left, General Clarke directed the main body of the Yeomanry to feel for the enemy. They had not proceeded far when they were charged by a large body of Basutos, who came down at full speed over the hills. A hand-to-hand fight ensued. The Basutos, armed with assegais, imitating the Zulus, succeeded in killing 24 Yeomen. The 24 Yeomanry then came to their assistance, and the rebels were driven back with considerable loss. A second charge was made by the Basutos at full speed, which was well-directed fire from two companies of the Cape Town Rifles. The enemy were estimated to number from 7,000 to 8,000, the greater portion of whom were not in action. The principal sufferers were among the East London, Graham's Town, Albany, and Kimberley troops.

The Natal Legislature has been opened by Sir G. Cofley. A Loan Bill is proposed for railway purposes, and to get a final contribution of £250,000 for the Zulu War.

Zuluand is now likely to prove a source of benefit instead of ever-present danger to Natal.

The Transvaal is tranquil. Sir G. Colley believes that the forces at the disposal of the Cape Government will be able to maintain its authority in Basutoland.

The Cape Government are sending large reinforcements to General Clarke, both of volunteers and Burghers.

The following telegram has been received from the Premier of the Cape Colony, dated the 22nd of October, 1880:—

"On the 19th, Brigadier-General Clarke advanced on Mafeteng, with European force of 1,600 men, composed of Cape Mounted Riflemen, Yeomanry, and Volunteers. He was opposed by some 8,000 rebels. Severe hand-to-hand fighting took place. Casualties on our side, 32 troopers killed and 10 wounded; loss of rebels considerable. Rebels driven back at all points, and the colonial forces entered Mafeteng with supplies. All well there. Large reinforcements being sent up. In Griqualand East, chiefs of all other native tribes are sending contingents to support Government in puting down Basuto rebellion."

CAPE TOWN, Oct. 26.

Mr. Hope, the magistrate at Quthia, has been treacherously murdered, many of Umhlonhlo's tribe witnessing the crime.

There has since been a gathering of Umhlonhlo's people and the tribe is now in open rebellion.

Mr. Walsh, the magistrate at Tsolo, is reported to have been also murdered, and an attack is expected to be made on Umtata.

Colonel Carrington captured Lethorodi's village on the 22nd inst.

The colonial loss in killed and wounded was very slight.

Several engagements of minor importance have occurred between the rebels and the colonial forces, in which the latter have been completely successful.

Two thousand Burghers have been called out, and 1000 volunteers have been called for.

The following telegram was received from the Premier of the Cape Colony, dated the 29th October:—

On the 22nd Lethorodi's village was stormed by Colonial forces.

The rebels were totally routed and driven out, and the village burnt.

The casualties are one killed and ten wounded; the wounded are doing well.

Rebel losses considerable.

General Clarke and troops are in excellent spirits.

All quiet around Maseru.

Unfavourable news from Griqualand East. Hope, a magistrate, with Umhlonhlo, murdered by Pondomise, who are now in rebellion.

Reported that Walsh, another magistrate, with Umdichna, has also been murdered.

Volunteers are now moving into the Transkei to suppress this outbreak.

Two thousand Burghers have been called out.

ESTABLISHED 1868.

PRICE SIXPENCE.

The PALL MALL BUDGET is a weekly collection of Original Articles, Occasional Notes, Essays and Reviews printed in the PALL MALL GAZETTE from day to day, and is published for the convenience of persons resident in the remoter districts of Great Britain and Ireland, on the Continent, in America, India, Australia, and other distant places.

The PALL MALL BUDGET is composed of FORTY PAGES, in size and appearance like those of the PALL MALL GAZETTE.

The PALL MALL BUDGET also contains a complete, concisely written SUMMARY of NEWS, and is at once a Weekly Newspaper and a compendious Review of the Politics and Literature of the Week.

A SPECIAL EDITION, printed on Thin Paper for the Foreign Post, is published on FRIDAY AFTERNOON.

The SUBSCRIPTION, including POSTAGE, for the FOREIGN EDITION, printed on thin paper, is:—

INDIA AND CHINA, 8s. 2d. PER QUARTER.
ALL OTHER PLACES INCLUDED IN THE POSTAL TREATY, 7s. 7d. PER QUARTER.

All Subscriptions are payable in advance. Cheques and P. O. Orders to be made payable to HENRY LESLIE, and crossed London and Westminster Bank, St. James'-square.

OFFICES: 2, NORTHUMBERLAND STREET, STRAND, LONDON, W.C.

THE PALL MALL GAZETTE is a London Evening Paper, price Twopence, which was established in the year 1865 as an independent Liberal Newspaper and Review, and as such soon acquired a reputation as one of the Leading Organs of opinion in England. That its original character was Liberal as well as independent is sufficiently marked by the following announcement, which from its first issue and down to the present time has been published by way of advertisement to describe the objects and character of the Paper, and which is of itself a sufficient reply to an idea which has obtained in some quarters that the PALL MALL GAZETTE owed its position and success to its later extravagant advocacy of Jingoism:—

"THE PALL MALL GAZETTE—which is conducted on Liberal principles—contains all the latest Law, Police, Telegraphic, Monetary, and General Intelligence up to the hour of going to press.

"The PALL MALL GAZETTE also contains many original articles on Political and Social subjects, Reviews of Books, Criticisms upon the Theatre, the Opera, the Picture Exhibitions, &c., by independent and authoritative writers. The City Intelligence is made a great feature, and Foreign Correspondence appears in its pages."

Many improvements have recently been made in the contents of the Paper. It now contains an animated narrative of the Proceedings in Parliament, written by an eye-witness, a succinct and compressed summary of opinion from the Daily and Weekly Newspapers, and full Telegraphic Despatches from Special Correspondents at home and abroad.

In all respects the PALL MALL GAZETTE maintains its old traditions as an independent Libera Journal.
